Suite I-204
Reno, Nevada 89502

Phone: 775.448.9950
Fax: 775.448.9603
Web site: www.nvpep.org

Workshop Descriptions:

Families Are Important
This workshop is designed for families who have concerns about their child’s development and would like to learn more about the early intervention process.

How is My Child Reading?
This workshop focuses on helping participants understand the terms that are used when discussing reading and writing. Don’t miss this workshop full of valuable information on how students learn to read and write and how to address literacy concerns in a student’s IEP.

IEP Clinics
Nevada PEP offers Individualized Education Program (IEP) Clinics. This workshop includes a brief overview of the IEP process and a question and answer session. Please bring your child’s IEP so you can review it during the class.

Is Your Child a Target of Bullying?
Many students miss school because of bullying. Bullies tend to target children who are considered “different”. This workshop offers intervention strategies to help families cope with and prevent bullying.

Positive Behavioral Interventions
Join us as we introduce the skills to identify and address behaviors that parents and professionals find challenging. This workshop will provide an overview of functional assessments and positive interventions. Information will cover how to prevent and understand the behaviors of children and how they may affect the ability to be successful at home, school, and in the community.

Process to Obtain Help for a Child
Evaluation and determining eligibility are key elements in special education. Participants in this workshop will learn about the process that determines the need for special education and related services.

Skills for Effective Parent Advocacy
Learn six important skills you can use to become a more effective advocate for your child with a disability. Communication techniques will help you feel more confident advocating for your child.

Understanding ADHD
Parents and teachers of children who have Attention Deficit Hyperactivity Disorder (ADHD) face different challenges when helping children achieve appropriate behaviors. When a child has ADHD, traditional approaches to teaching appropriate behavior may not work well. Learn some strategies that can help a child become successful in home, community, and school environments.

Webinar: Navigating Through Transition
Both parents and students will learn an overview of the transition requirements in the IEP, including strategies they can use for effective transition planning as the students move toward college, employment, and living independently.

Webinar: Understanding ADHD for Parents
Parents of children who have Attention Deficit Hyperactivity Disorder (ADHD) face difficult challenges when helping children achieve appropriate behaviors. Attend this webinar to learn strategies that can help children become more successful in managing their behaviors.

You Can Do It!
This will help high school students with disabilities prepare for a successful transition into college. Participants will receive their very own “You Can Do It” guide, which provides strategies and ideas that will help parents and students develop a plan to attend college.

Early Childhood Transition
Come learn what you need to know before your child’s 3rd Birthday. You will learn new skills and strategies that will help you prepare to exit Early Intervention services and move to an Early Childhood Program. Parents know their child best and can guide the transition process to meet their child’s individual needs.

Nevada PEP workshops are provided at no charge.
